

MINISTER OF FINANCE

December 27, 2009

To Whom it May Concern,

I support the humanitarian efforts, education projects and hasbara activities of Frontline Israel Project Inc. operating here in Israel.

The actions of this organization through the years have proven that they are working to further benefit the people of Israel.

I understand the value of Frontline Israel stimulating tourism, bringing investors and teaching leaders to be good will ambassadors to stand with us in their own countries.

I encourage leaders in Israel and around the world to connect with Joel Bell and work in partnership to further the opportunities for the Evangelical Zionists worldwide.

My sincere thanks to Joel Bell for the work he has done to demonstrate his commitment and for continuing to persevere in spite of all the obstacles he has faced. I give my commitment to work in a capacity that will strengthen these relationships with those who are proven friends of Israel.

Dr. Yuval Steinitz
